

# OUTSIDER 127

Complete the puzzle using the letters outside the grid. The letters are listed alphabetically beside the relevant rows and columns and the number of black squares to be accommodated is also given. Clues are provided but are not in order. The grid displays 180° rotational symmetry; that is to say it looks the same when turned upside-down.

Two clued solutions, when conjoined, will provide a clue to the identity of seven further unclued solutions.

A A A A A A A  
 A C E A C D  
 D E L A A C D E  
 E E M C C E D E
